# Double Visionaries: The Psychic Twins

Terry and Linda Jamison, known internationally as “The Psychic Twins”, are widely considered to be the world’s most documented psychics, with an unrivaled track record of accurate predictions. They are most famous for their stunning predictions of the 9/11 World Trade Center terrorist attacks, the Pentagon attacks, and the May 2000 stock market crash (all made on international radio, November 2, 1999, Art Bell’s Coast to Coast A.M.)

The Psychic Twins are currently starring on the Emmy-winning *Tyra Banks Show*, which airs in 110 countries. Their two appearances were Tyra’s most popular shows of 2009, and Tyra’s website crashed both times, due to an overwhelming response from enthusiastic viewers! Terry and Linda’s bestselling book, *Separated at Earth: The Story of the Psychic Twins*, describes their amazing life journey, their struggle to overcome serious illnesses and public opposition to their highly unusual work.

Terry and Linda have practiced true Buddhism for twenty-five years. “As Buddhists in the largest world peace organization, we discovered that we had a special gift to motivate, inspire, and counsel others”, says Terry. “Over the years we were able to integrate these gifts with our psychic abilities. In the end, this

was the culmination of a life-long search for our personal holy grail, and in the process we discovered our most authentic selves,” Linda adds.

The Psychic Twins have appeared extensively on international TV and radio since 1990. Profiled in *The 100 Top Psychics in America* (Simon and Schuster), and *The Book of Twins* (Doubleday), the Jamison Twins have been featured in over eighty TV shows and they have starred in fourteen documentary films worldwide, including the hit A&E film *Psychic Children* and *The World’s Closest Twins* (with Mark Dolan, airing in the U.K. 2010). Their television appearances include *The Tyra Banks Show* (Telepictures), *Extreme Twins* (film for Channel 5-UK), *The Dr. Keith Ablow Show* (FOX), *The Other Side* (NBC), *The Other Half* with Dick Clark and Mario Lopez, *Oprah’s Oxygen Network*, *Saturday Night Live*, *Turner Superstation’s Twin Stories*, and AMC’s *Hollywood Ghost Stories*.

### THE PSYCHIC TWINS CRACKED THE CASE!

THE CBS INSIDER called in the Jamison Twins to be psychic detectives on the Olivia Newton-John case in 2005. When her longtime boyfriend Patrick McDermott mysteriously vanished off the coast of San Pedro, California, police were looking for a body in the water. The Psychic Twins stated on camera that he had faked his own death and was hiding in Mexico. This was later validated by a representative of Patrick McDermott, as well as twenty sources who reported sightings of McDermott in Mexico.
